

FT25BS

High temperature blue polyester flash tape - silicone adhesive

Production Description	High temperature blue polyester flash tape - silicone adhesive roll size 25mm wide x 66 metres long (carrier tape thickness 0.025mm, adhesive thickness 0.038mm)
General Description	A thin, strong, silicone adhesive coated polyester film carrier with exceptional high quality, high performance properties Silicone adhesive exhibits high temperature resistance.
Colour	Blue

TECHNICAL DATA

	<u>METRIC</u>	<u>IMPERIAL</u>
Carrier Thickness:	0.025 mm	1 mil (0.001")
Adhesive Thickness:	0.038 mm	1.5 mils (0.0015")
Overall Thickness:	0.063 mm	2.5 mils (0.0025")
Adhesion to steel:	8.33 N / 2.5 cm width	29 oz / inch width
Tensile:	100 N / 2.5 cm width	22 lbs / inch width
Elongation:	100%	100%
Maximum Usage Temperature:	200°C	390°F

FURTHER INFORMATION - PROCESSING DETAILS

Please contact Amber Composites for further information.

This is not a specification. The information given in this data sheet in relation to the performance, storage and other characteristics of the product is based on results gained from experience and tests and is believed to be accurate. Given, however, that conditions of use and storage will vary, Amber Composites will not be liable for any loss or damage resulting from reliance upon such information. The purchaser is recommended to carry out his own tests to establish the suitability of the product for its particular purpose. The use of the product in certain processes may require third party consent.
