
AMBER COMPOSITES

ENVIRONMENTAL POLICY STATEMENT

Amber Composites is a leading manufacturer of high performance composite prepreg materials and a distributor of associated products.

The company is committed to the continual improvement of its environmental performance and to preventing pollution through the development of our formal Environmental Management System.

In the fulfilment of our commitment to the environment, Amber Composites will:

- Set and regularly review objectives and targets for our highest rated significant environmental aspects.
- Comply with all environmental legislation, regulations and other requirements relevant to the business.
- Integrate our environmental policy, programs and practices into the management of our business and ensure that our employees, customers, contractors and suppliers are aware of our commitment.
